

# Intelligent Circuit Breaker Changing CV63 Factory Reset

Please see the data sheet on **Intelligent Circuit Breaker Changing An iP-CB CV Setting** before attempting to change any CVs.

## CV63

This CV resets the iP-CB back to it's factory settings

For example:

Set **CV63 = 36** the iP-CB will be factory reset, hence:

**CV57 = 0**

**CV64 = 0**

**CV66 = 0**

The iP-CB's address will be reset to **200**

**Please think carefully before changing any CVs on the iP-CB**
